

## ***CANDIDATE FOR CHIEF of the ADAMS LAKE INDIAN BAND HENRY ANTHONY***

Using these Principles:

- I acknowledge that our relationship is based on reconciliation and implementation to the existence of Secwepemc inherent title & rights.
- Acknowledge the Secwepemc governance & laws are essential to the regulation of lands and resources throughout Secwepemculecw.
- Cste'Inec people acknowledge the mutual responsibility to shift into relationship negotiation and agreement based recognition.
- This means we must immediately move to consent based on the decision making and title based fiscal relation; inclusive of revenue sharing and negotiations.

**Bands working as a team:** When we speak of “shared decision-making” or about “revenue and benefit sharing” we are necessarily speaking about these concepts in relation to the proper title holder.

**Moving forward:** Secwepemc has always known the necessity of nation-building. Many believe there is a critical need to move out from the under the Indian Act to rebuild our traditional governing structures within modern society. In order to more effectively negotiate with the crown to address serious social-economic and cultural need for Secwepemc.

***“ELECT HENRY ANTHONY FOR CHIEF”***
