Re: Survey on Trans Canada Highway through Neskonalith IR2

Dear Adams Lake Indian Band Members,

Sk'atsin Infracon Site Services will be completing a Preliminary Survey for the Ministry of Transportation and Infrastructure (MOTI) Highway 1 from Hoffman's Bluff to Chase Creek Road.

The boundary of the project includes approximately 5.9km of survey on Hwy 1 between the East end of the recently constructed Hoffman's Bluff twinning (approximately 7.8km east of Pritchard) to 700m west of the Shuswap Chase Road. In addition, the survey is to include the service station and 250m of access road, Chief Neskonalith Drive, Railway drainage structures, and driveways accessing Hwy 1.

The work began **September 17th** and will last approximately **two weeks**.

Please be patient as lane closures will be required to safely complete our work. Drivers can expect lane closures during the week of September 24th – 28th.

Please contact me if you have any questions.

Thank you,

Shane Vincenzi, Manager,
Sk'atsin Resources LLP
