

The Chase & District Museum & Archives Society is interested in creating an outdoor exhibit centered around native plants of the area with a focus on those used by the First Nations peoples.

The Museum is looking for volunteers to take on this project.

We're looking for:

- Those with knowledge of native plants
- People willing to perform the labour of preparing the area and planting
- And those who would be interested in taking care of the garden in perpetuity

The group will work with the Museum curator to develop an interesting and informative exhibit. There are no age requirements for those who want to volunteer. This is an opportunity for the young and old to work together and to be directly involved with the Museum.

If you are interested or have any questions, comments, or suggestions please contact Breanne at the Chase & District Museum & Archives Society.
