

Preparing for Climate Change for the Adams Lake and South Thompson Region Climate Trends, Impacts and Action

Friday February 1, 2019

Adams Lake Recreation Center

9:00 am – 3:30 pm

Lunch provided

WHAT THE WORKSHOP WILL ADDRESS:

- How the climate is changing on Adams Lake Indian Band lands and traditional territory
- Community climate change observations, traditional knowledge and priorities
- Critical climate impacts to be preparing for
- Identification of the most important areas to advance climate action

WHO SHOULD ATTEND

Any Band member with an interest in learning more about how climate change is expected to impact this region and what actions are needed to respond to a changing climate.
