Shuswap Lake Beach(es) Advisory

Press Release

July 22, 2019

The Adams Lake Indian Band was recently made aware of high levels of E. Coli bacteria which poses a health risk within the waters of our Territory. The First Nations Health Authority has conducted its tests and informed the Adams Lake Indian Band of its findings.

After assessments of the situation were determined, the Adams Lake Indian Band is now working toward the mitigation of all environmental issues affecting the people, land, waters, wildlife and fish within our territory. We have mobilized resources such as engineering, contractors and the First Nations Health Authority to ensure that our natural resources will be protected for future generations to come.
