

Carpentry & Foundation Program

REGISTRATION FORM

Gain the skills necessary to launch a career in one of the most in-demand trades.

Students will gain the knowledge needed to safely use hand tools, portable power tools, and other equipment used by carpenters. As a carpenter you will build and repair residential, commercial, and industrial buildings in accordance with local building codes. You will work with a variety of construction materials including wood, concrete, fasteners, and engineered products. The program will include a medium to large scale construction project where students will be involved in all practical aspects of constructing a wood frame building.

This unique program will give students the foundation they need to find a good career in construction trades. Students who successfully complete the program will meet the ITA theory requirements for Carpentry Level 1.

Requirements

- ✓ Photocopy of Government Identification
- ✓ Placement on the Entry Assessment Test for English at an 0500 level
- ✓ Placement on the Entry Assessment Test for Math at an 0500 level
