

Traditional vs Contemporary Employment

What does this mean?

In a traditional Community, it is said that the Elders were the ones to watch over the young ones, see the “gifts” they were born with, and encourage fulfillment of those gifts.

Today ,we are left to ourselves to determine where we feel we fit into Community in contemporary ways.

How do I fit into the Community?

How do I support the Youth, today, for tomorrow?

What do the Band Council, the Administration, and Community Members have in common when it comes to Employment?

How does a Land Holder contribute to Employment in Community?

Does the business idea I have help Community?

Shuswap Labour Market Assessment & Planning Project

Are you interested in:

- land use management training
- cultural tourism
- trades business development
- governance training
- economic development ideas

What does this have to do with merging tradition with today?

Only YOU can make the difference
in your Community by sharing your
“gift”

Bringing Community Leaders, Community Programs & Services and the People together to create opportunities for today, tomorrow and the future for all generations!
