

# Psychology of Vision

## CLAIMING THE FEMININE

- The Truth Of Who I Am

Nov. 10, 11, 12, 2017

with **Francine Girard** (PoV Level 3 Trainer)

The winds of life buffet us around constantly, and all too easily, it seems, they can blow us off our path and we slip into one of many possible traps. One way to get back on track, is to turn to our center, where we can find the truth that is always there. An invaluable tool in seeking this truth is accountability. Empowering us, without self-attack or blame of another, it helps us see and accept, how and why we've slipped off the path. With this understanding, we can learn the lesson and move closer to embracing the truth of who we are. The winds of life become steadier, calmer and more fun.

**Francine Girard** is a Level 3 PoV Trainer with more than 20 years experience with PoV. As Director of PoV's International Training Program she has guided the program structure, policies and procedures. Tapping into her engineering background, she continues to evolve the program in partnership with the global Trainer community. "I help to empower others, with tools they need to deal with everything in life. PoV embodies the essence of who we are as humans" she says. "I aim to help others save time, money and pain while healing and having fun. Psychology of Vision does that."

**Date/Time** - Nov. 10, 11, 12 - 2017 (Friday - Sunday)
