

Spring Street Sweeping

April 5, 2019

Spring street sweeping operations will begin to take place on Sahnaltkum Indian Reserve #4 (Chase) beginning the **week of Monday, April 8th to 12th, 2019** to remove winter sand from community roads. The Band Office Parking Lot will be done on **Tuesday, April 9th, 2019**. This helps to prevent airborne dust in neighbourhoods and makes the streets safer for walking, cycling and driving.

Adams Lake Indian Band Public Works Department ask that all residents to please **avoid parking on streets** when sweepers are working in the area to allow the equipment to properly sweep the roadway in its entirety. **Vehicles and any other obstructions** parked on ALIB roadways, streets, cul-de-sac please plan ahead to find temporary alternative parking.

As street sweeping is expected to affect each area for only a brief period, your cooperation will assist crews to perform their work quickly and minimize any inconvenience. Tip for safety, please proceed with caution when driving behind or passing a street sweeper. Give them ample room to operate as dust may reduce visibility.

For more information on Spring Street Sweeping,
please contact the Public Works Department at (250)679-2228.

Your cooperation is appreciated.
