

# **ALIB Homeowners with wood stoves on** **IR#4 and IR#6**

September 29, 2021

The Adams Lake Band has some firewood to assist homeowners to heat their homes, donation for funerals and/or for community sweats

Our priority is to deliver to the elders, people on disability and single parents.

*We strongly urge families that are capable and have the resources, to get their own firewood, as we are on a very limited supply of firewood every year.*

We ask that you be mindful that there is a process to this application based on priority and limited loads per/day. So please be respectful to the staff that are processing the applications, as they are doing their best in assisting to provide these services to the community.

A notice will be sent out once we have received our firewood.

Thank you from the Natural Resources Department
