Covid Booster vaccine

What is a Covid booster shot?

Is an additional dose of a vaccine given after the protection provided by the original shot (s) has begun to decrease over time. Typically, you would get a booster after the immunity from the initial dose (s) naturally starts to wane.

A booster is half the dose of the first and second vaccine except for people who live in long term care facility and people 70 years and older.

What is a third dose?

The third dose is a full dose that is given to people who are immunosuppressed.

When can I get my Covid booster ?

Sexqeltqin Health Centre: Nov 19, Nov 24

Sxwetsméllp office: Nov 26

Book Appointment/Drop Ins

Please call:

Sexqeltqin Health Centre 250 679 7726

Sxwetsméllp office 250 833 0356
